

Climate Change

Statement of Interest:

- To advocate for impactful and proactive responses to the climate crisis on municipal decision-making, infrastructure, and residents.
- To seek out, hear, and collaborate with knowledge-holders who can offer their expertise.
- To partner inter-municipally, as well as with other levels of government, to advance climate crisis knowledge, policies, and resources.
- To acknowledge the intersectionality of climate related issues.
- To collaborate on climate crisis stewardship, public safety, and equity.
